Calculus is the branch of mathematics studying the rate of change of quantities and the length, area and volume of objects. With the ability to answer questions from single and multivariable calculus, Wolfram|Alpha is a great tool for computing limits, derivatives and integrals and their applications, including tangent lines, extrema, arc length and much more.

Interact provides an interactive tool to dynamically visualize the impact of parameters on calculations. This is done in a very general way using the basic functionality of Python. Therefore nearly every possible dependency could be shown.

### **SageMath - Tour - Graphics**

An operational calculus converts derivatives and integrals to operators that act on functions, and by doing so ordinary and partial linear differential equations can be reduced to purely algebraic equations that are much easier to solve. There have been a number of operator methods created as far back as Leibniz, and some operators such as the Dirac delta function created controversy at the ...

The Lost Highway Tour was a worldwide concert tour by the American rock band Bon Jovi, that took place from October 2007 to July 2008 in support of their 10th studio album Lost Highway.Originally

planned as a 2008 greatest hits tour, the tour was changed to promote Lost Highway after the album's worldwide success, reaching #1 in several countries when released in June 2007.

### **Lost Highway Tour - Wikipedia**

"Drowned World/Substitute for Love" is a song recorded by American singer Madonna for her seventh studio album, Ray of Light (1998). It was written and produced by Madonna and William Orbit, with additional songwriters including Rod McKuen, Anita Kerr and David Collins. McKuen and Kerr received the credits due to the usage of a sample from one of their songs, "Why I Follow the Tigers".
