Biologically Speaking Classification Of Living

Brown or brown people is a racial and ethnic term. Like black people and white people, it is a metaphor for race based solely on human skin color. In racist ideas, the color brown and the term brown people were used to describe a series of hypothesized racial groups that included North Africans, people from the Horn of Africa, West Asians, South Asians, Central Asians, Southeast Asians ...

Brown (racial classification) - Wikipedia

Biology is the "science of life." It is the study of living and once-living things, from submicroscopic structures in single-celled organisms to entire ecosystems with billions of interacting organisms; it further ranges in time focus from a single metabolic reaction inside a cell to the life history of one individual and on to the course of many species over eons of time.

Biology - New World Encyclopedia

Biodiversity is not evenly distributed, rather it varies greatly across the globe as well as within regions. Among other factors, the diversity of all living things depends on temperature, precipitation, altitude, soils, geography and the presence of other species. The study of the spatial distribution of organisms, species and ecosystems, is the science of biogeography.
