Development theories are about understanding how the processes of change in societies take place. Scholars from historically less-developed parts of Europe, and from the colonial world, contributed to the construction of modern theories of development in the 1940s, stressing the role of the state. In contrast, critique from left-wing and liberal perspectives gave priority to the role of the ...

Development Theories - Oxford Scholarship

The scientific theory of evolution by natural selection was proposed by Charles Darwin and Alfred Russel Wallace in the mid-19th century and was set out in detail in Darwin's book *On the Origin of Species* (1859). Evolution by natural selection was first demonstrated by the observation that more offspring are often produced than can possibly survive.
