BCS International Diploma in Business Analysis | QA

Business Analysts are increasingly required to extend themselves beyond their traditional role of developing and maintaining IT systems. They need the capability to understand the business strategy, use proven techniques to analyse the business area, and identify changes to business processes needed to meet internal and external challenges.

BCS Certificate in Business Analysis Practice | Training ...

Business analysis is a research discipline of identifying business needs and determining solutions to business problems. Solutions often include a software-systems development component, but may also consist of process improvement, organizational change or strategic planning and policy development.
