Blood And Oil The Dangers

A potential risk of high lignan flax oil is mistaking it for ground flaxseed for the treatment of constipation. Flaxseed is common laxative because of its soluble and insoluble fibers, but high-lignan flaxseed oil does not contain high amounts of these fibers and is not as effective, according to MayoClinic.com.

Ozone Overview: Ozone can be applied to the body in a number of ways. The Germans have a long history of applying ozone in a therapy known as Autohemotherapy. This therapy requires the removal of a pint of blood from the body, ozonating it, and reintroducing the blood into the bloodstream. A second technique is to introduce the ozone directly into the bloodstream via intravenous injection.
