The CASTLE curriculum meets most of the standards set by the NYSRPC, which are described in Table 3. Static electricity and mathematical problem solving are two areas, which the CASTLE curriculum does not cover, (as shown in Table 1). The good thing is that static electricity is a very small portion of the NYSRPC and can be covered in a week.

The videos are not intended to replace the actual lab work done by students in class. Though, if a person were studying physics and had no access to lab equipment, the videos could be used to help them work through the CASTLE materials. The videos have relatively low production quality (I have no crew) but hopefully good usefulness.
