What Lionni's story captures so effectively is a fundamental insight about learning: new understandings are constructed on a foundation of existing understandings and experiences. With research techniques that permit the study of learning in infancy and tools that allow for observation of activity in the brain, we understand as never before how actively humans engage in learning from the ...

An ellipsoid is a surface that may be obtained from a sphere by deforming it by means of directional scalings, or more generally, of an affine transformation.. An ellipsoid is a quadric surface; that is, a surface that may be defined as the zero set of a polynomial of degree two in three variables. Among quadric surfaces, an ellipsoid is characterized by either of the two following properties.

Recrystallization Test Can you identify the unknown crystal by the way it looks when it recrystallizes? The way a substance dissolves in water is a characteristic property of that substance. Similarly, the way a substance "un-dissolves", or recrystallizes, is also a characteristic property of the substance. The following recrystallization tests provide another clue that can help confirm the ...
