Thank you | Arys Health Medical Centre

Wrinkles appear with age, usually as a result of the skin becoming thinner, losing elasticity and becoming more vulnerable to damage. Although heredity plays a major part in the determination of your skin's texture, smoking cigarettes and spending too much time in the sun can also cause premature aging and wrinkles, according to MayoClinic.com.

Sunlight damages human skin, resulting in a wrinkled appearance. Since natural sunlight is polychromatic, its ultimate effects on the human skin are the result of not only the action of each wavelength separately, but also interactions among the many wavelengths, including UV, visible light, and infrared (IR).
