In accounting, reconciliation is the process of ensuring that two sets of records (usually the balances of two accounts) are in agreement. Reconciliation is used to ensure that the money leaving an account matches the actual money spent. This is done by making sure the balances match at the end of a particular accounting period.

First, please know that I am not a dog hater – in fact, a couple of years ago we lost Mei-Li, our much-loved 13-year old Shih Tzu. However, I may be in the minority among Tredyffrin residents, who do not support the idea of off-leash dogs in public places – unless they are in a fenced pet area. As background, when I was around two or three years old, my mother was taking me for a walk in ...
