Sintered silver joint is a porous silver that bonds a semiconductor die to the substrate as part of the packaging process. Sintered Ag is one of the few possible bonding methods to fulfill the operating conditions of wide band-gap (WBG) power device technologies.

Identifying the Development State of Sintered Silver (Ag ...

Zach joined Quad-C in 2018. Prior to joining Quad-C, Zach was an Associate in the Industrials Group at RBC Capital Markets, where he focused on mergers and acquisitions, debt financings and equity raises for public and private companies in the building products and distribution industries.

Our Portfolio — Quad-C Management | Experienced Investment ...

Nonpyrogenicity is typically confirmed through the use of end product batch testing for product release. Alternatives to batch release testing may be used if it has been demonstrated that the manufacturing process and materials are well controlled. The process must be capable of producing final released products with bacterial endotoxin levels that consistently meet the specified limits.

Using FMEA to Develop Alternatives to Batch Testing | MDDI ...

Table 2 shows the main compounds found in PLA samples (pellets and film) and in migration solutions. A total of 37 different compounds were detected. Initially, 23 were detected in pellet samples and afterwards, 19 out of them were also detected in films.

Determination of non-volatile components of a ...

ADHESIVES AND CONSOLIDANTS. Synthetic resins are widely used by conservators. These resins

are polymers constructed of a chain or network of repeating single units, called monomers, that combine with themselves, or with other similar molecules or compounds, to form polymers.

Preservation of Artifacts - antique restorers

The first question amounts to a mass balance exercise (), akin to the carbon budgeting carried out since the 1990s to uncover the “missing sink” of anthropogenic carbon dioxide (Keeling et al. 1989). The mass balance can be evaluated using two approaches: (a) assessing the plastic inputs into and outputs from the marine environment as a whole and (b) quantifying the standing stock of ...
