Amazing Cells From the structure and function of organelles to communication on a molecular level,

these materials explore the inner-most workings of cells in a dynamic and realistic way. ... Cell communication is a multi-step process. ... Students drag several types of signals to various cell types and record the cell's response. An answer key ...

Amazing Cells - Genetics

Cell signaling leads to regulation of transcription or cytoplasmic activities. Apoptosis: the cell is systematically digested, which protects the neighboring cells from damage that could have happened if a dying cell leaked out its other enzymes. Apoptosis is triggered by signals which activate a cascade of "suicide" proteins in the cell.
