### **Baby Signs : How to Talk with Your Baby Before Your Baby ...**

How to sign with your baby. As with any new skill, it's important to go at your baby's pace. The best time to start is when your baby begins to develop a real desire to communicate. This usually happens around 8 or 9 months when you may notice your baby is more sociable, starts to babble, and uses noises and facial expressions to get your attention.

### **Signing with your baby or toddler: How to communicate with ...**

So the more you talk to your baby, the faster he will acquire speech and language skills. Many adults use a special tone of voice when talking baby talk -- a high-pitched voice with exaggerated expression. This natural baby talk mimics the female voice, which babies the world over associate with feeding and comfort.

### **Baby Talk, How Babies Communicate, Talking to Your Baby**

Read to your baby and talk about the pictures you see. Celebrate, smile, and act excited when she makes sounds and smiles. At around 2 months, babies start making vowel sounds ("ah-ah" or "oh-oh").

### **The Importance of Baby Talk: Tips on How to Talk to Your Baby**

According to Nancy Cadjan, President of signbabies.com, a line of books, seminars, DVDs, games and flash cards that advocate baby sign language, babies are developmentally ready for their parents to start signing to them after 4 months old, but won't be able to sign back until 7-9 months, when they have better coordination.
