Science Quiz: Biology: Photosynthesis - Ducksters

The Student's t-test is a statistical test that compares the mean and standard deviation of two samples to see if there is a significant difference between them. In an experiment, a t-test might be used to calculate whether or not differences seen between the control and each experimental group are a factor of the manipulated variable or simply the result of chance.

Biology EOC - FLVS

The letter that indicates the tissue in which the products of photosynthesis are stored is letter C. Photosynthesis uses the sun's rays in the form of electromagnetic energy to convert it into chemical energy to be used for the plants. It needs proteins that are present in the plants to perform a series of necessary conversions.

In figure 23-2, what letter indicates the tissue in which ...
