I, as a founder of functional medicine in 1990, am amazed at the quality of people such as Dr. Kanodia that have elected to be part of this systems biology transformation that's occurring in health care that's really focused not on what we call things, but really on where they came from so that we'll treat disease at its source not as its effect.

### **KanodiaMD - Functional Medicine**

Intracellular bacterial pathogens intimately interact with the infected host cell to prevent elimination and to ensure survival. One group of intracellular pathogens, including Coxiella burnetii, Legionella pneumophila, Brucella spp., Anaplasma phagocytophilum, and Ehrlichia chaffeensis, utilizes a type IV secretion system (T4SS) that injects effectors to modulate host cell signalling ...
