Parents need to know that Overwatch is an online multiplayer team-based first-person shooter. Two teams of six players fight against each other in a number of game types; while kids can play with people they know, it's also possible for them to play with strangers -- that, plus the unmoderated chat (which means all bets are off in terms of what kids can hear), is the main reason for our 13 ...

Overwatch - Game Review - Common Sense Media

The Australian community expects therapeutic goods in the marketplace to meet an acceptable standard of safety and quality. Therapeutic goods include goods Australians rely on every day, such as vitamin tablets and sunscreens, through to goods used to treat serious conditions, such as prescription medicines, vaccines, blood products and surgical implants.

Regulation basics | Therapeutic Goods Administration (TGA)
