There is growing international recognition of ESD as an integral element of quality education and a key enabler for sustainable development. The Sustainable Development Goals (SDGs) adopted by the global community for the next 15 years include ESD. Target 4.7 of SDG 4 on education addresses ESD and related approaches such as Global Citizenship Education.

As noted in chapter 6 (of the full assessment), the sources of releases of mercury to the biosphere can be grouped in four major categories. Two of these categories (releases due to natural mobilisation of mercury and re-mobilisation of anthropogenic mercury previously deposited in soils, sediments and water bodies) are not well understood and largely beyond human control.

### **6. What can be done to reduce mercury releases?**

The IPCC prepares comprehensive Assessment Reports about the state of scientific, technical and socio-economic knowledge on climate change, its impacts and future risks, and options for reducing the rate at which climate change is taking place.
