We recently explored how wealthy countries (those defined as high-income by the World Bank) tend to visit a different set of technologies than the rest of the world. Among the largest differences we saw was in the programming language Python. When we focus on high-income countries, the growth of Python is even larger than it might appear from tools like Stack Overflow Trends, or in other ...

Preface. This introduction to R is derived from an original set of notes describing the S and S-PLUS environments written in 1990–2 by Bill Venables and David M. Smith when at the University of Adelaide. We have made a number of small changes to reflect differences between the R and S programs, and expanded some of the material.

Which theories & explanations make the most sense? So far, the two leading theories are that we're "sliding" between parallel (or similar) realities, or that we've visited holodecks (and may be in one, right now) that have some glitches. However, those concepts are broad. I've been trying to narrow the possibilities. Initially, I've been searching ...
