Black is the darkest color, the result of the absence or complete absorption of visible light. It is an achromatic color, literally a color without hue, like white and gray. It is often used symbolically or figuratively to represent darkness, while white represents light. Black and white have often been used to describe opposites; particularly truth and ignorance, good and evil, the Dark Ages ...

Viewpoint: No, either life began on the surface during the period known as the late heavy bombardment, or it began in a protected environment away from the surface and the devastating impacts. The origin of life on Earth is one of the most important, and elusive, problems in science. Efforts to understand the origin of life have been frustrated by lack of evidence.
