Biology for NGSS is an entirely new resource, and has been developed in consultation with practising teachers in the USA. It has been specifically written to meet the high school life science requirements (HSLs) of the Next Generation Science Standards (NGSS). The three dimensions of the standards are integrated throughout the workbook:

### **Biology for NGSS Student Workbook - BIOZONE**

Global biodiversity is the measure of biodiversity on planet Earth and is defined as the total variability of life forms. More than 99 percent of all species that ever lived on Earth are estimated to be extinct. Estimates on the number of Earth's current species range from 2 million to 10 12, of which about 1.74 million have been databased thus far and over 80 percent have not yet been described.
