Introduction to the Evolution literature - Gert Korthof

Vitiligo is one of the oldest and commonest skin disorders affecting approximately 1-2% of the human population. 1 The disease shows no regard to the ethnic, racial or socioeconomic background of the affected sufferers. The cosmetic impact of this disease is tremendous and its psychological impact devastating particularly in coloured races. 2,3,4 The aetiopathogenesis of this disease is now ...

Review Article | British Journal of Medical Practitioners

Abiogenesis, or informally the origin of life, is the natural process by which life has arisen from non-living matter, such as simple organic compounds. While the details of this process are still unknown, the prevailing scientific hypothesis is that the transition from non-living to living entities was not a single event, but a gradual process of increasing complexity that involved molecular ...
