Probability is the measure of the likelihood that an event will occur. See glossary of probability and statistics. Probability quantifies as a number between 0 and 1, where, loosely speaking, 0 indicates impossibility and 1 indicates certainty. The higher the probability of an event, the more likely it is that the event will occur.

Mathematics (from Greek μάθημα *máthēma*, "knowledge, study, learning") includes the study of such topics as quantity, structure, space, and change.. Mathematicians seek and use patterns to formulate new conjectures; they resolve the truth or falsity of conjectures by mathematical proof. When mathematical structures are good models of real phenomena, then mathematical reasoning can ...

Problems originating from different sources often take on a similar mathematical form. So, for example, the map-colouring problem and the problem of drawing up a lecture time-table that minimizes the number of classrooms needed have similarities that suggest their solution might be found using methods from the same branch of mathematics viz 'Combinatorics'.
