Today we completed the video about the challenges of life. We then discussed the different examples of organism adaptations. We also made a list of three organisms we would like to study for the research project and submitted them using microsoft forms.

### **Leventopoulos, D / What we did today 2018-2019**

Credits: 1. Prerequisite: Middle school biology and chemistry. Recommended: 9th or 10th Test Prep: CLEP Biology This course covers the basic material for this exam, but this is considered a very hard test, and I would suspect more will need to be studied to learn everything required for this huge exam. It's worth the same as two college courses which is why it covers so much.

Quantum tunnelling or tunneling (see spelling differences) is the quantum mechanical phenomenon where a subatomic particle passes through a potential barrier. Quantum tunneling is not predicted by the laws of classical mechanics where surmounting a potential barrier requires enough potential energy.. Quantum tunnelling plays an essential role in several physical phenomena, such as the nuclear ...
