### **Eco-Libris | How green is the book publishing industry?**

Publishing is the dissemination of literature, music, or information. It is the activity of making information available to the general public. In some cases, authors may be their own publishers, meaning originators and developers of content also provide media to deliver and display their content. Also, the word "publisher" can refer both to an individual who leads a publishing company or an ...

Self-publishing is the publication of media by its author without the involvement of an established publisher. In common parlance, the term usually refers to physical written media, such as books and magazines, or digital media, such as e-books and websites. It can also apply to albums, pamphlets, brochures, video content, zines, or uploading images to a website.

### **Self-publishing - Wikipedia**

Almost everything being said about publishing today is predicated on two facts that are dead wrong. The first is that publishers are somehow being hurt by ebook sales. The second is that independent bookstores are being crushed. The opposite is true in both cases, and without understanding this, most of what everyone says about publishing is [...]
