What is science? Science is the concerted human effort to understand, or to understand better, the history of the natural world and how the natural world works, with observable physical evidence as the basis of that understanding 1.It is done through observation of natural phenomena, and/or through experimentation that tries to simulate natural processes under controlled conditions.

What Schools and Teachers say... I would just like to say how inspired I was today (as was my colleague) by the 'challenge curriculum'. So much so, that I went straight back into school and discussed this with our head, who, after my excited ranting about how amazing I believe taking this approach to the curriculum could be for our school, also feels that this is something we should definitely ...
