In Christian and Jewish creationism, a religious view based on the creation account of the book of Genesis, created kinds are purported to be the original forms of life as they were created by God. They are also referred to as kinds, original kinds, Genesis kinds, and baramin (a neologism coined by combining the Hebrew words bara [created] and min [kind], though the combination does not work ...

Sociological theory vs. social theory. Kenneth Allan proposed the distinction between sociological theory and social theory. In Allan's usage, sociological theory consists of abstract and testable propositions about society. It often heavily relies on the scientific method, which aims for objectivity, and attempts to avoid passing value judgments. In contrast, social theory, according to Allan ...

Pap tests detect abnormal cervical cells, including precancerous cervical lesions, as well as early cervical cancers. HPV tests detect HPV infections that can cause cervical cell abnormalities. Learn how Pap and HPV tests are done, how often testing should be done, and how are HPV test results are reported.

HPV and Pap Testing - National Cancer Institute

There are collective myths by which we interpret our reality. These myths are obstacles to creating what you want in life. The myths are given to us by experts because that is what they went to school to learn.. The only truth you will get from highly educated people comes from a few great intellectuals which the establishment won't dare attack, like Einstein and Max Planck.
