Social responsibility is an ethical framework and suggests that an entity, be it an organization or individual, has an obligation to act for the benefit of society at large. [citation needed] Social responsibility is a duty every individual has to perform so as to maintain a balance between the economy and the ecosystems.A trade-off may exist between economic development, in the material sense ...

Social responsibility - Wikipedia

Biodiversity is a contraction of biological diversity. It reflects the number, variety and variability of living organisms and how these change from one location to another and over time. Biodiversity includes diversity within species (genetic diversity), between species (species diversity), and between ecosystems (ecosystem diversity).
