A World Without Time: The Forgotten Legacy of Gödel and ...

A World Without Time: The Forgotten Legacy of Gödel And Einstein. In 1942, the logician Kurt Gödel and Albert Einstein became close friends; they walked to and from their offices every day, exchanging ideas about science, philosophy, politics, and the lost world of German science. By 1949, Gödel had produced a remarkable proof: In any universe...

A World Without Time: The Forgotten Legacy of Gödel And ...

Time is not a being, a thing, or a substance in the world, nor does it operate as a power, a force, or a destiny in our life. It has no external existence; the word "time" is used by a sort of obtuse poetry for processes that have better names of their own... (essay by Eva Brann)

Basic Books, 2005. A world without time implies the simultaneous appearance of the history of the universe. This should be something that is observable, in a good observational test of a scientific theory, like observing a solar eclipse to test General Relativity. Since past, present, and future are not equally present to consciousness, experience,...
