Engine. Blink is a fork of the WebCore component of WebKit, which was originally a fork of the KHTML and KJS libraries from KDE. It is used in Chrome starting at version 28, Opera (15+), Vivaldi, Amazon Silk and other Chromium-based browsers and frameworks.. Much of WebCore's code is used for features that Chrome implements differently (such as sandboxing and the multi-process model).

Not everyone has the kind of money to splash out on a new car and, thanks to the used car market, there is no need to do so either. With the number of pre-owned cars that are available at affordable prices today, it makes sense to save some cash and get the type of vehicle you really want instead of settling for a new one that falls within your budget.
