Assembling California John McPhee

At various times in a span of fifteen years, John McPhee made geological field surveys in the company of Eldridge Moores, a tectonicist at the University of California at Davis. The result of these trips is *Assembling California*, a cross-section in human and geologic time, from Donner Pass in the Sierra Nevada through the golden foothills of ...

Assembling California (Annals of the Former World): John ...

Assembling California, John McPhee (3.5) This is my first John McPhee book and I can say the author does not talk down to his audience. If anything, I would have enjoyed a Geology textbook or glossary next to me for the majority of the book.

Assembling California by John McPhee - Goodreads

McPhee and Moores also journeyed to remote mountains of Arizona and to Cyprus and northern Greece, where rock of the deep-ocean floor has been transported into continental settings, as it has in California. Global in scope and a delight to read, *Assembling California* is a sweeping narrative of maps in motion, of evolving and dissolving lands.
