Answers Digestive System - Printable Worksheets

Functions in the Human Digestive System. The job of the digestive system is to break down the food we eat into smaller units, so we can use it as energy to keep our body going. It does many magnificent things to keep your body fit. You will need to use the information below to answer the questions in this worksheet.

Functions in the Human Digestive System - EdPlace

The Digestive System. All processes in our body need energy that we retrieve from food. In order to

convert it into energy, food must be fragmented down into its components. The organs of the digestive tract split the food both mechanically and chemically and allow nutrients to pass into the blood and with this, into each individual cell.
