In its most basic sense, multimodality is a theory of communication and social semiotics. Multimodality describes communication practices in terms of the textual, aural, linguistic, spatial, and visual resources - or modes - used to compose messages. Where media are concerned, multimodality is the use of several modes (media) to create a single artifact.

According to the ILO, "Americans work 137 more hours per year than Japanese workers, 260 more hours per year than British workers, and 499 more hours per year than French workers."; Using data by the U.S. BLS, the average productivity per American worker has increased 400% since 1950. One way to look at that is that it should only take one-quarter the work hours, or 11 hours per week, to ...
