Audit definition is - a formal examination of an organization's or individual's accounts or financial situation. How to use audit in a sentence.

Audit | Definition of Audit by Merriam-Webster

The risks of information technology (IT) are well known (or so they should be) to executive management, the board and internal auditors. These risks range from information security threats to the risk of investing in the wrong Enterprise Resource planning (ERP) solution, to the cost & time impact of not making proper requirement definitions and understanding what the business needs.
