Introduction to Web Design. This site is a companion for the Introduction to Web Design course. The four main topics we will cover are HTML5 (creating the content for your site), CSS3 (styling your site), JavaScript (adding some interactive features), and Responsive Design (making sure your site looks good on smartphones, tablets, laptops, and PCs).

Web Design for Everyone | Home

A Web for Everyone 3 Designing is an activity. When you make decisions about a product, and your decisions impact the lives of its users, you are designing— whether you think of yourself as a designer or not. The strategist defines the purpose and goals, the interaction designer focuses on how users

A Web for Everyone - rosenfeldmedia.com

I scored this a 4 / 5. Today I want to review a book I recently finished reading: A Web for Everyone: Designing Accessible User Experiences. Nobody wants to put up roadblocks for people but if we decide to remain ignorant as to what a website needs to do to be as accessible as possible to as wide an audience as possible then that is what we are doing.

A web for Everyone: Designing Accessible User Experiences

A Web for Everyone - O'Reilly Media

In their new book, A Web for Everyone: Designing Accessible User Experiences, Sarah Horton and Whitney Quesenbery make a case for accessibility that begins and ends with people. "We believe that great design starts by thinking about how to make products work for everyone." The book is a great resource for those trying to implement accessibility measures without making sacrifices that compromise ...

Book Excerpt: A Web for Everyone | UX Magazine

Responsive Design. What is responsive design? It is designing your page layout to reflect the size and capabilities of the device being used to look at the page. Have you ever visited a site from your phone just to find out you can't access important information? This means the site is not responsive.
