The Center of the Universe. The "Center of the Universe" is a little-known mysterious acoustic phenomenon. If you stand in the middle of the circle and make a noise, the sound is echoed back several times louder than it was made. It's your own private amplified echo chamber. As the legend goes, a foghorn could be going off in the center...

The Center of the Universe is the first book by Ria Voros that I've read, and it is absolutely lovely. It is a contemporary, first-love romance, an exploration of the relationship between mothers and daughters, a mystery, and a celebration of science and our amazing universe all rolled into one beautifully written novel.
