What causes the fresh smell we experience just before the onset of a storm or shower of rain, which is especially noticeable after an extended dry spell?

Last Word Archive | New Scientist

Representing 1, 2 and 3 in as many lines as the number represented worked well. [citation needed] The Brahmin Indians simplified 4 by joining its four lines into a cross that looks like the modern plus sign. The Shunga would add a horizontal line on top of the numeral, and the Kshatrapa and Pallava evolved the numeral to a point where the speed of writing was a secondary concern.

The next issue of Tabletop Gaming Magazine is about a week from release. You might just want to pre-order yourself a copy so you can get it as soon as possible. Why? Because it's going to have an exclusive announcement about the next Pandemic game via an interview with the game's designer. There's other stuff in there as well, but I think that's the article that'll get most people's attention.

Wind is the flow of gases on a large scale. On the surface of the Earth, wind consists of the bulk movement of air. In outer space, solar wind is the movement of gases or charged particles from the Sun through space, while planetary wind is the outgassing of light chemical elements from a planet's atmosphere into space. Winds are commonly classified by their spatial scale, their speed, the ...
