## **CBSE Class 9 Biology Worksheet - Fundamental Unit of Life**

Marine biology is the scientific study of marine life, organisms in the sea. Given that in biology many phyla, families and genera have some species that live in the sea and others that live on land, marine biology classifies species based on the environment rather than on taxonomy.. A large proportion of all life on Earth lives in the ocean. The exact size of this large proportion is unknown ...

## **Marine biology - Wikipedia**

"Life is wonderful! Life is grand! There's no doubt about it: we seriously need life. ... Just one question. ... What is life?" Biology is the study of living things, but is there a universally accepted definition of "living things"?

## **Definition of Life - FT Exploring**

The pre-Socratic philosophers asked many questions about life but produced little systematic knowledge of specifically biological interest—though the attempts of the atomists to explain life in purely physical terms would recur periodically through the history of biology. However, the medical theories of Hippocrates and his followers, especially humorism, had a lasting impact.
