The sheer size of an elephant's brain suggests their intelligence must be pretty high. Like dolphins, they've been seen consoling and helping others, and there's even been a recorded instance of one passing the Mirror Test. But the elephant lags behind the dolphin in one crucial area: despite what a familiar saying might have you believe, the elephant forgets—or at least doesn't ...

A friendly face doesn't always mean they're a friend—and nowhere is that more true than the animal kingdom. Sure, everyone knows a cuddly cat may not always be so cuddly (especially if there's catnip at play), but some deadly animals take faking cuteness to the next level. To that end, we've gathered 30 adorable baby photos of some of the world's most dangerous animals.

According to numerous burial sites in North and South America, indigenous Americans enjoyed the companionship of dogs. Canines were loyal "beasts of burden" and vermin exterminators that benefited from human protection and the odd table scraps. At the Janey B. Goode site in southern Illinois, archaeologists unearthed dozens of carefully buried dogs, a few of them in pairs, placed back to back.
