Breastfeeding Answers Made Simple - LLLGB Shop

Welcome! Breastfeeding is an important women's issue, human rights issue, health issue and feminist issue. Breastfeeding empowers women. Women who wish to breastfeed their babies but do not, because of inadequate support from family or health workers, constraints in the workplace, or misinformation, often feel guilty because of this failure at something they wanted to do.

What are the Best Birth Control Options While Breastfeeding?

A vasospasm is a sudden constriction (or narrowing) of the blood vessels. A nipple vasospasm may be triggered by a breastfeeding baby in a shallow latch and it can also be connected with Raynaud's phenomenon (a condition affecting blood supply). Nipple vasospasm can also be associated with deep breast and muscle pain—a condition referred to as Mammary Constriction Syndrome.
