correct me if I'm wrong but aren't the big corporations and factories doing what they are doing to meet consumer needs? If consumers (especially in the US) would cut their consumer behavior drastically (no more new clothes til the old ones are unrecoverably ripped, repair over replace, buying local produce instead of exotics, not buying redundant shit, no air travel, etc, etc, etc) the big ...

Bill Nye: "By the end of this century, if temperatures ...

In economics, an externality is the cost or benefit that affects a party who did not choose to incur that cost or benefit. Externalities often occur when a product or service's price equilibrium cannot reflect the true costs and benefits of that product or service. This causes the externality competitive equilibrium to not be a Pareto optimality. ...

Externality - Wikipedia

Exploring the Carbon Cycle dives deeper into the science behind the unique element that is carbon, which is essential to all living things and is often called the building block of life. This video defines important terms such as carbon pool and carbon flux, while also detailing carbon's movement through photosynthesis and respiration.
