Motivation is the reason for people's actions, willingness and goals. Motivation is derived from the word motive in the English language which is defined as a need that requires satisfaction. These needs could also be wants or desires that are acquired through influence of culture, society, lifestyle, etc. or generally innate. Motivation is one's direction to behaviour, or what causes a person ...

Gray, Henry. 1918. Anatomy of the Human Body

Core-shell particles are usually synthesized by a two-step or multiple-step process. The core particles are synthesized first and the shell is then formed on the core particle via different methods, depending on the type of core and shell materials and their morphologies. Core-shell nanoparticles have been mostly investigated, compared to core-shell microspheres.
