Dupas, Jessica / Biology STAAR Review

3. What is the typical vegetation and typical fauna of the tundra? Tundra has vegetation formed mainly of mosses and lichens. Among fauna, animals with a large amount of fur, such as caribou, musk oxen and polar bears, as well as migratory birds, are found.

World's Biomes - Biology Questions

Consumers and Producers by: Megan Dimanche The difference between a producer and a consumer is that a producer makes their own food, and a consumer depends on other organisms for their food.

What is the difference between a producer and a consumer?

ADVERTISEMENTS: The living organisms react with their environments and they bear full impression of the environments in which they grow. In order to withstand adverse conditions of the environment and utilize to their maximum benefit the nutrients and other conditions prevailing therein, the organisms develop certain morphological, anatomical, physiological and reproductive features.

Plant Adaptations: Introduction and Ecological ...

1. INTRODUCTION - OVERVIEW - Biology as a science deals with the origin, history, process, and physical characteristics, of plants and animals: it includes botany, and zoology. A study of biology includes the study of the chemical basis of living organisms, DNA. Other related sciences include microbiology and organic chemistry.
