A bank is a financial institution that accepts deposits from the public and creates credit. Lending activities can be performed either directly or indirectly through capital markets. Due to their importance in the financial stability of a country, banks are highly regulated in most countries. Most nations have institutionalized a system known as fractional reserve banking under which banks hold ...

Grameen Bank - Bank For The Poor

The history of banking began with the first prototype banks which were the merchants of the world, who made grain loans to farmers and traders who carried goods between cities. This was around 2000 BC in Assyria, India and Sumeria. Later, in ancient Greece and during the Roman Empire, lenders based in temples made loans, while accepting deposits and performing the change of money.
