The skeleton is the body part that forms the supporting structure of an organism. It can also be seen as the bony frame work of the body which provides support, shape and protection to the soft tissues and delicate organs in animals. There are several different skeletal types: the exoskeleton, which is the stable outer shell of an organism, the endoskeleton, which forms the support structure ...

The Democratic Party is promoting abortion as the defining right of women. The enfranchised woman must have a right not to be forced into a woman's "gender role" – which is to say, not to be a mother.. The Left considers it a health right to have free contraception provided under insurance policies. Though male and female must be equal in sexual behavior, women can change their minds ...
