OK, my laptop started showing some random characters all over the screen. It's even before Windows loaded. The characters appear when I turn on the laptop on the background where logo displayed and it looks like these characters forming vertical rows.

Screen shows strange colors | Laptop Repair 101

I had the same exact problem. After trying everything, including driver reinstall and system restores, I shut down the laptop and surrender, thinking about how much a new screen will cost me BUT after a couple of hours, I just turn it on, and everything works as usual.

Laptop screen won't turn on, but works with external ...

In this guide I explain how to remove and replace the LCD screen or inverter board in a Dell Inspiron 1525 laptop. Most likely this guide will work for many other Dell models. If it ...

How to replace LCD screen in Dell Inspiron 1525 - Inside ...

A laptop computer (also shortened to just laptop; or called a notebook or notebook computer) is a small, portable personal computer (PC) with a "clamshell" form factor, typically having a thin LCD or LED computer screen mounted on the inside of the upper lid of the clamshell and an alphanumeric keyboard on the inside of the lower lid. The clamshell is opened up to use the computer.

Remote desktop full screen mode not going full screen

We often fixate on smartphone battery life, but most laptops still don't have all-day battery life. Rather than tethering your laptop to an outlet, here are some ways to squeeze more life from your laptop's battery.. None of these tricks will turn a laptop without much stamina into an all-day workhorse, but they'll help you go without an outlet for a while longer.

How to Increase Your Windows Laptop's Battery Life
