Answers to your questions about the Snowy Owl nest. If you're looking for the answer to a specific question, type control-F (command-F on a Mac) and start typing in your search terms to quickly find the answer.

**Bird Cams FAQ: Snowy Owl Nest | All About Birds**

Futuyma: No, certainly not. There cannot be evolution without genetic variation in the first place. So there must be mutation and often recombination to generate the different genotypes or the different versions of the genes, known as alleles, which then may or may not make a difference in the ability of an organism to survive and reproduce.

Irreducible complexity (IC) involves the idea that certain biological systems cannot evolve by successive small modifications to pre-existing functional systems through natural selection. Irreducible complexity has become central to the creationist concept of intelligent design, but the scientific community, which regards intelligent design as pseudoscience, rejects the concept of irreducible ...
