Build Awesome Command-Line Applications in Ruby 2

Ruby Gems for Command-Line Apps. Mar 26 th, 2012. One of the toughest things about writing command-line apps in Ruby is finding the right gems. There's tons out there, but they can be really hard to find, either due to names that are too generic (main) or too bizzare (trollop).

Ruby Gems for Command-Line Apps - Build Awesome Command ...

Command-line Applications¶. Command-line applications, also referred to as Console Applications, are computer programs designed to be used from a text interface, such as a shell. Command-line applications usually accept various inputs as arguments, often referred to as parameters or sub-commands, as well as options, often referred to as flags or switches.

Command-line Applications — The Hitchhiker's Guide to Python

Figure 1, Basic parts of a command-line app invocation, on page 5 shows a diagram of a basic command-line invocation with the main elements of the command line labeled. For simple command-line applications, options and arguments are all you need to create an interface that users will find easy to use. Some apps, how-ever, are a bit more ...
