Thanks for a VERY useful site, Carlton, which I have used several times since HD TV sets came out some years back. Just replaced a 5 year old 50″ plasma set (that developed a horizontal line) with another 51″ plasma set, 720p, ($399), same brand (it was easy to put all the connections in the same places and not have to use a different remote).

Until about 2003, most computer monitors used an aspect ratio of 4:3, and in some cases 5:4. Between 2003 and 2006, monitors with 16:10 aspect ratio became commonly available, first in laptops and later also in standalone computer monitors. Reasons for this transition was productive uses for such monitors, i.e. besides widescreen movie viewing and computer game play, are the word processor ...
