As much as this blog is, as I've said, a celebration of heroism and idealism and the fictional women who have inspired me and continue to do so, these articles also serve another purpose - they're a place for me to write down a version of my own personal biography for everyone to see.

A Feminized Setting

A diacritic – also diacritical mark, diacritical point, diacritical sign, or accent – is a glyph added to a letter, or basic glyph.The term derives from the Ancient Greek διακριτικός (diakritikós, "distinguishing"), from διακρίνω (diakrī́nō, "to distinguish"). Diacritic is primarily an adjective, though sometimes used as a noun, whereas diacritical is only ever an ...

The character Archie Andrews was created by Vic Bloom and Bob Montana and first appeared in a humor strip in Pep Comics #22 (December, 1941).. Within the context of the strip and the larger series that grew out of it, Archie is a typical teenage boy, attending high school, participating in sports, and dating.

List of Archie Comics characters - Wikipedia

Thank you very much for this well-informed and well-written post. In a database application I am developing, I have implemented what seemed to me to be a makeshift but safe solution: extending multi-language sortable fields with an additional field for a string to sort by (in this case, Kata pronounciation).

This answer does not address the problem, which is how do I convert all of the factor columns in my data frame to character.as.character(f), is better in both readability and efficiency to levels(f)[as.numeric(f)].If you wanted to be clever, you could use levels(f)[f] instead. Note that when converting a factor with numeric values, you do get some benefit from as.numeric(levels(f))[f] over, e ...
